"Parents, it will be a teacher standing between a killer and your child. Know that the teacher will protect your babies. Educators, if you find yourself in such a situation, you are going to want to be prepared. The beautiful thing is that training exists, and it is not hard to learn. All of us want to go home to the people we love each day. Taking a small amount of time to train can help make sure that happens."

- Retired school administrator whose district received Active Shooter/Intruder Response Training and subsequently experienced multiple shooting events at their school over the years.
